I live near Glasgow and am trying to buy a [used BMW X5](#) . I have done endless searches online for used BMW X5 Scotland but the prices seem to be higher than those car dealers in Southern parts of the UK. Big Motoring World Kent have a huge selection available but it is a very long journey there, where I would probably be best to leave a deposit over the phone subject to a test drive. I could then catch a flight from Glasgow to Heathrow and drive the car back. I need to call this car dealer and discuss this and ensure my deposit is fully refundable subject to viewing the vehicle.
